

**NO STOPPAGES
AND NO
MONITORING.
IT DOES ALL
THE WORK.**

TRU-TEST®

WOW! XR3000 **WEIGH SCALE**

The Walk Over Weighing (**WOW**) **XR3000** combines 25 years of weighing experience, together with the ultimate in Tru-Test technology to produce a weigh system specifically designed for dairy application.

Weighing your dairy cows enables you to detect potential productivity and animal health issues quickly so you can make accurate decisions fast. With frequent weighing, you can easily ensure your animals are receiving the correct dosage of medication, vaccine and drench and the optimum supplementary feed.

WOW! is the most advanced weighing technology available, allowing you to weigh animals without stopping them on the platform. No need for chicanes or special setups, simply add the Tru-Test 2.5 m platform into your race. No added stress is put on the animal.

The WOW! weigh scale has all the features of the XR3000, Tru-Test's total animal management weigh scale, including individual animal history, graphs, 10 way drafting and predictions on weight and yield.

Like all Tru-Test weigh scales, WOW! Is 100% water and dust proof.

Key Features

- **Simple to use.** Intuitive user interface with onboard interactive help system and tutorial.
- **Increased convenience.** Streamlined and efficient collection of data with automatic incrementing and repetition of commonly occurring data.
- **Simple downloading, uploading of files and printing reports.** Link3000 software comes standard. The XR3000 is also ideal for use with Tru-Test Pinnacle software for a more advanced performance management tool.
- **50,000 records in 200 files.** Specific mobs can be allocated their own files for reporting. This provides vital management information on groups and individual animals.
- **Life data fields.** Eight 25-character life data fields for recording animal characteristics such as breed, sex, sire and dam.
- **User definable data fields.** Definable data field names to suit specific requirements.
- **File data.** Three 12-character code fields for recording additional animal information such as treatment.

ACT

- **Alpha-numeric key pad.** Alpha tags, field codes and file names can be used.
- **Large back lit display with light sensor.** Large characters make the display easy to read in dim light. Back lighting automatically turns on or off as light level changes.
- **Drafting (Sorting).** Up to ten-way drafting based on weight, weight gain and non-weight factors.
- **Custom fields.** Provide fast entry of data from pre-set tables.
- **Graphs.** On screen graphical view of animal performance with histograms and line graphs.
- **Animal history table.** Provides a full history for an animal and includes all recorded data.
- **Historical memory.** View previously recorded weights and data e.g. treatment cattle received while weighing.

Product Description	Part Number
WOW! XR3000 indicator Includes: 12 volt and mains power charger, mounting bracket, Link3000 software and serial computer cable	807435
WOW! System Includes: WOW! XR3000 indicator, 2.5 m platform and MP600 load bars	807501

General Specifications	
Size	WOW! XR3000 270 x 190 x 71 mm (W x H x D). WOW! platform 2500 x 610 x 180 mm (W x H x D).
Weight	1.6 kg
Battery	Charging time = 8 hours in normal conditions. Run time = 15 hours continuous use minimum with two load cells, 9 hours with backlight on. Auto turn off = 15 minutes.
Power requirements	AC adaptor (regulated) or battery, using crocodile clip 11 to 16 V d.c.
Waterproof	IP67. 100% water and dust proof. Submersible to 1 m for 30 minutes.
Serial communications	2x D9, RS232. Allows for connection to EID reader, computer, printer or modem. Includes: Link3000 software for daily downloading of weights. Comprehensive "how to" manual for processing of data through to weight loss/gain and Excel formulas.
